SCIENTIFIC AGRICULTURE

LA REVUE AGRONOMIQUE CANADIENNE

VOLUME XVII

September 1936 - August 1937

EDITED BY THE
CANADIAN SOCIETY OF TECHNICAL AGRICULTURISTS AT
OTTAWA, CANADA

Published monthly by the authority of the
Chairman of the National Committee on Agricultural Services

SUBJECT INDEX TO VOLUME XVII

ENGLISH ARTICLES

Page

Activated carbon as a fertilizer ... 1
Adaptation of apple orchards in Quebec to special soil types ... 329
American foul-brood sterilization experiments, 1931–35 ... 678
Analysis of variance, The use of, in soil and fertilizer experiments with particular reference to interactions ... 302
Analytical observations on the changes of pectic substances and sugars in celery during cold storage ... 128
Apple orchard cultivation, A study of the extent to which, may be reduced ... 670
Apples, Cold storage problems with ... 105
Apples, Physiological disorders of ... 199
Apples, Progress report on the investigation of corky core of ... 115
Apple tree growth and fruiting, Field Studies of
I. Sampling and measuring terminal shoots ... 563
II. Correlations between growth and fruiting ... 573
III. Some observations on the measurement of tree vigour ... 657
Apple trees, Stock and scion relationships in some four-year-old ... 551
Armillaria mellea Vahl ex. Fr. on Raspberries in British Columbia ... 752
Artificially induced fatuoids in a dwarf mutant oat ... 703
Asparagus plant records, Some observations on individual ... 144

Bacon, Some studies on the causes of soft, ... 31
Bacterial wilt and rot of potatoes ... 518
Barley, Effect of fertilizers on yield and malting quality of ... 250
Barley-hay ration, Plane of nutrition and digestibility of a ... 11
Barley, Modified equipment and methods for the routine malting test and a study of its precision ... 742
Beef cattle production—a problem ... 74
Book reviews ... 56, 463, 592, 655
Boron deficiency, a yellowing of alfalfa due to ... 515
Boron deficiency—
in apples ... 115, 199
in horticultural crops ... 148, 283
in turnips ... 209, 299

Brown heart, Turnip ... 209
Brown heart of turnips at Macdonald College, Progress report on the investigation of ... 299

Canadian agricultural exhibitions ... 57
Carbon, Activated, as a fertilizer ... 1
Celery during cold storage, Analytical observations on the changes of pectic substances and sugars in ... 128
Charge account records of purchases of cheese by 92 families in the cities of Oshawa and Montreal ... 162
Clay fraction of Annapolis Valley soils, The ... 325
Cold storage problems with apples ... 105
Comparative study of semi-scalding and dry roughing in relation to the ease of removing pin feathers by wax dressing, A ... 50
Control of potato flea beetles ... 264
Corky core of apples, Progress report on the investigation of ... 115
Corm behaviour in the gladiolus in relation to season of bloom ... 733
Cracking of cherries ... 550
Current American farm program, The ... 165

Page

Dairy ration, The significance of fat in the,... 86
Determination of the effect of fattening on the carcass of the chicken, The... 540
Digestibility of Canadian feeding stuffs—soybean oil meal, The... 22
Digestibility studies with ruminants. II. Plane of nutrition and digestibility of a hay-barley ration... 11

Early spring budding by the plate method... 713
Economic literature... 103, 167
Economic situation, The... 89, 154
Effect of date of sowing upon the comparative performance of two wheat varieties 502
Effect of fertilizers on yield and malting quality of barley... 250
Effects of freezing temperatures and of defoliation on the subsequent growth of wheat plants, The... 420
Effect of soil moisture, hardening, endosperm condition and variety on the frost reaction of wheat, oat, and barley seedlings, The... 616
Elford, Frederick Charles,—an appreciation... 337
European corn borer, *Pyrausta nubilalis* Hubn., A field experiment on the control of the, by *Beauveria Bassiana* Vuill... 587
Exhibitions, Canadian agricultural... 57

Fecundity and reproductive ability in closely confined fowl... 359
Fertilizer, Activated carbon as a... 1
Fertilizers, Methods of applying commercial... 279
Fertilizers, Response of the tobacco plant to, in southwestern Ontario... 137
Fertilizers—
Magnesium in field crop production in New Brunswick... 294
Minor elements affecting horticultural crops... 148
Testing the fertility of Alberta soils by the Neubauer and Lemmermann methods... 312
The rôle of elements other than nitrogen, phosphorus and potash in crop production... 283
Field experiment on the control of the European corn borer, *Pyrausta nubilalis* Hubn., by *Beauvaria Bassiana* Vuill., A... 587
Field studies of apple growth and fruiting.
I. Sampling and measuring terminal shoots... 563
II. Correlations between growth and fruiting... 573
III. Some observations on the measurement of tree vigour... 657

Financial results of two years' farm operations in New Brunswick... 163

Hogs, self-feeding *versus* hand feeding for market, with particular reference to effects on carcass measurements and quality... 529
Horse breeding situation in Canada, The... 83
Horticultural crops, Minor elements affecting... 148

Inheritance and use of phenol colour reaction in hard red spring wheats, The... 243
Inheritance of earliness of heading and other characters in a Garnet × Red Fife cross... 482
Inheritance of egg production in the domestic fowl
II. Increases in production, their extent and characteristics with a discussion of causal factors... 376
III. Differences in transmitting ability of dams and the degree of dam-daughter correlation... 386
IV. Reliability of progeny tests of sires... 393

Land utilization in southwest central Saskatchewan 157
Land utilization survey, Objectives in the Alberta, ... 94
Life insurance carried by farmers in the Lomond and Vulcan Districts, Alberta 100
Linkage tests with the yellow-head and dominant-white plumage and white-skin characteristics in domestic fowl 451

Magnesium in field crop production in New Brunswick 294
Major problems in field husbandry 754
Maple products, some data on the consumption of, ... 96
Marketing legislation in New Zealand 92
Methods and rations for fattening poultry 340
Methods of applying commercial fertilizers 279
Milk, The production of fluid, in the Edmonton and Calgary milk sheds 401
Minor elements affecting horticultural crops 148
Modified equipment and methods for the routine malting test and study of its precision 742

Northern limits for potato beetle infestation, The, ... 447

Objectives in the Alberta land utilization survey 94

Pale western cutworm, *Agrotis orthogonia* Morr., A probable cultural control for the 612
Pasture conservation and improvement 334
Pasture improvement 336
Pasture soils, Studies of the element phosphorus in 462
Peach buds, types of, in relation to nursery practice 445
Pea moth, *Laspeyresia nigricana* Steph., on the Gaspé Coast 694
Physiological disorders of apples 199
Physiology of *Rhizoctonia Solani* Kühn. V. The activity of certain enzymes of *Rhizoctonia Solani* Kühn 544
Pollination of the Shiro plum 727
Potato beetle infestation, The northern limits for 447
Potato flea beetles, Control of 264
Potatoes, Bacterial wilt and rot of 518
Poultry, Methods and rations for fattening 340
Preliminary investigations on the effect of salinity on the incidence of cereal root rots 215
Preliminary tests with softwood cuttings of trees and shrubs in Alberta 720
Probable cultural control for the pale western cutworm, *Agrotis orthogonia* Morr., A 612
Production of fluid milk in the Edmonton and Calgary milk sheds, The 401
Progress report on the investigation of brown heart of swede turnips at Macdonald College 299
Progress report on the investigation of corky core of apples 115
Propagation response from root cuttings planted with the proximal end projecting above the medium 146
Protein levels in the fattening ration as influencing the composition of the thigh muscle with different ages of poultry meat stock 453

Quantitative study of symbiotic nitrogen-fixing bacteria in soils in relation to crop rotation, season, and fertilizer treatment, A. Abstract 461

Raspberry nutrition. III. Are sulphates deficient in B.C. coastal soils? 707
Recent adjustments in the organization of Canadian agriculture 465

Report of the Variety Zone Co-ordination Committee of the Western Canadian Society of Agronomy 260
Reproductive ability in closely confined fowl, Fecundity and 359
Response of the tobacco plant to fertilizers in southwestern Ontario 137
Rhizoctonia Solani Kühn., Studies on.
I. Effect of potato tuber treatment on stem infection six weeks after planting 225
II. Effect on yield and disease of planting potato sets infested with sclerotia.. 601
Rhizoctonia Solani Kühn., The physiology of. V. The activity of certain enzymes of *Rhizoctonia Solani* Kühn 544
Rôle of elements other than nitrogen, phosphorus and potassium in crop production, The 283
Root cuttings, Propagation response from, planted with the proximal end projecting above the medium 146
Root rots, Preliminary investigations on the effect of salinity on the incidence of cereal 215
Rural population movements 169

Seeders, some variables in experimental 523
Seed germination of the Saskatoon and Pincherry 736
Seed germination, Some factors in delphinium 730
Seedlings, wheat, oat, and barley, The effect of soil moisture, hardening, endosperm condition and variety on frost reaction of 616
Seed mottling in soybeans 42
Seed production in the dandelion 235
Seed value of frosted wheat, The 431
Seeds, weed, A study of some ingredients found in ensilage juice and its effect on the vitality of certain 492
Self- *versus* hand-feeding for market hogs, with particular reference to effects on carcass measurements and quality 529
Significance of fat in the dairy ration, The 86
Soil, Adaptation of apple orchards in Quebec to special, types 329
Soil analysis, The use of hydrofluoric acid in 323
Soil conservation programs in the United States and Canada 265
Soil cultivation and tilth 270
Soils, A study of the nitrogenous faction of 318
Soils, Some physical properties of virgin mineral, of Quebec 333
Soils, Testing the fertility of Alberta, by the Neubauer and Lemmermann methods 312
Soils, the clay fraction of Annapolis Valley 325
Some data on the consumption of maple products 96
Some factors in delphinium seed germination 730
Some investigations with regard to the effect of nitrogen on the storage qualities of celery 741
Some observations on individual asparagus plant records 144
Some physical properties of virgin mineral soils of Quebec 333
Some studies on the causes of soft bacon 31
Some variables in experimental seeders 523
Soybean oil meal, The digestibility of Canadian feeding stuffs 22
Soybeans, Seed mottling in 42
Stock and scion relationships in some four-year-old apple trees 551
Studies of the element phosphorus in pasture soils 462
Studies on malting quality. I. 1935 Variety trials 593
Studies on *Rhizoctonia Solani* Kühn.
I. Effect of potato tuber treatment on stem infection six weeks after planting 225
II. Effect on yield and disease of planting potato sets infested with sclerotia.... 601

Page

Studies on the influence of variety and culture on the keeping of celery in commercial cold storage. Abstract 740
Studies on the microbiology of podsol soils in Quebec. Abstract 462
Study of nitrogenous fraction of soils, A 318
Study of some ingredients found in ensilage juice and its effect on the vitality of certain weed seeds 492
Study of the extent to which apple orchard cultivation may be reduced, A 670
Sweet clover studies on habit of growth, seed pigmentation and permeability of the seed coat 627

Testing the fertility of Alberta soils by the Neubauer and Lemmermann methods 312
Tobacco plant, Response of the, to fertilizers in southwestern Ontario 137
Turnip brown heart 209
Turnips, brown heart of swede, Progress report on the investigation of, at Macdonald College 299
Types of peach buds in relation to nursery practice 445

Use of analysis of variance in soil and fertilizer experiments with particular reference to interactions 302
Use of hydrofluoric acid in soil analysis, The 323

Warble fly control in Canada 179
Wax dressing, A comparative study of semi-scalding and dry-roughing in relation to the ease of removing pin feathers by 50
Wheat plants, The effects of freezing temperatures and of defoliation on the subsequent growth of 420
Wheat, The seed value of frosted 431
Wheat varieties, The effect of date of sowing upon the comparative performance of two 502
Wheats, The inheritance and use of phenol colour reaction in hard red spring 243

Yellowing of alfalfa due to boron deficiency, A 515
